March 2016

Volume VIII, Issue III

## Facts About March

The 3rd month of the year is an outstanding one

In the Georgian calendar, the calendar that most of the world uses, March is the third month of the year. However, it was the first month and named Martius in the early Roman calendar. Later, the ancient Romans made January to be the first month so March became the third month, which always had 31 days. The name Mars was named after the Roman god of war. In March, the winter ends and spring begins. In the northern half of the world, spring begins in March 19-21, which is the day when the sun is directly over the equator. At this time, the animals end hibernation and begin to show up.

Below are some fun facts about March:

1. The birthstone for March is the aquamarine.
2. The zodiac signs for March are Aries (March 21 - April 19) and Pisces (February 19 - March 20)
